**Subject:** FFS Reply - Draft EPA letter for your review...  
**Attachments:** 07-XX-21 -- EPA ltr - EMWMF-EMDF RAD WW FFS.doc

**Importance:** High

Good morning Cathy,

I finished going through the materials that Martha provided and much of it (all of it?) will be resolved upon completion of the EPA Administrator's decision – at least as far as RAD is concerned.

Attached is the draft of our response letter back to DOE based on our discussions yesterday. I have gone page-by-page through the D3 FFS and extracted revised text or questionable text that I think needs to be addressed. I deliberately did not get into the weeds with my comments (I hope that you see it this way 😊).

Please feel free to make the actual changes and not worry about redline/strike-out because I find that after a few reviewers it is almost unreadable. Just go ahead and make whatever changes you want to make. It is a draft document in need of editing/revision.

I have not numbered the comments because someone may want to add others and then you have to renumber the numbers 😊. I find it easiest to assign the comment numbers after everyone is done. However, you can change all the "X"s to numbers if you wish.

Thanks for your help with this document.

Gratefully,

Carl
